You want to shape digital society?
Master of Digital Entrepreneurship (MoDE)

Cross borders.
German-Polish double degree

Think broad.
economics, law, computer & social sciences

Be unique.
develop your own project
Cross borders.

The European New School of Digital Studies (ENS) is a joint academic venture of the European University Viadrina Frankfurt (Oder) and the Adam Mickiewicz University Poznań. Our home is the Collegium Polonicum (CP) – a unique scientific and cultural interaction hub between Poland and Germany.

The ENS was founded with the vision of connecting economists, lawyers, social scientists and technical experts in computer and technology sciences to take on the challenges of the digital transformation.

Together, we conduct transdisciplinary research, teach on the challenges and opportunities of technological innovation and belong to an international community keen to impact Europe’s digital future.
Master of Digital Entrepreneurship

Think broad.

Our study concept is based on a close cooperation between students and academic staff in teaching, team-based projects and everyday working life. You will have access to our very own Coworking Space, which is the central meeting spot at ENS. Both academic and non-academic mentors will help you to plan and realize your project ideas and support you in developing your personal network of partners from business, politics and civil society.

For application process and admission criteria:

admission-ens@europa-uni.de

Degree
Master of Arts

Language
English

Duration
4 Semesters

Costs
No Tuition Fees
It’s your choice to either stand by and watch or take an active role in shaping the digital future. Studying at ENS opens excellent career opportunities in various fields of science, politics, civil society and economics.

The digital transformation affects all of us.

JASMIN (26), MASTER STUDENT AT ENS

»The ENS is a place where you and your ideas are taken seriously and your input is valuable. The diverse backgrounds of both students and teaching staff have helped me to develop my project ideas further and get my head around what exactly I want to do.«
